UNIPART

Unipart parts and accessories are tested and approved by BL Cars Limited. For full details of the Unipart range refer to the Unipart catalogue.

# INTRODUCTION

## INDEXES

The catalogue features a series of indexes for easy reference.

1. Pictorial Index – This index consists of small illustrations, each highlighting a group of components. Against each group the commencing and finishing page numbers on which the items appear are given.

2. Alphabetical Index – This index lists all the major items of the vehicle in alphabetical sequence and provides the page number on which the item can be found.

3. Numerical Index – This index which is at the end of the catalogue lists all serviced parts in numeric sequence, together with a full description of the part and the first page number on which the item appears.

## LAYOUT

The catalogue illustrates all parts, assemblies and repair kits available for the vehicle and quotes the part number directly on the illustration page. The quantity for any part number is always one off unless a higher quantity is shown in brackets against the part number. Where a component is not part numbered individually it is not available as a separate item. In such cases the assembly or kit must be fitted to the vehicle. Part numbers quoted on illustrations are common to all models covered by the publication unless otherwise stated against the heading, the part number, or in the section at the bottom of the illustration. Where two part numbers are shown against an item, the second number being in brackets, this indicates a supersession exists and the number in brackets is the earlier number.

Users should familiarize themselves with the various standard symbols and abbreviations that are used throughout the catalogue, together with the country abbreviations that are used to denote parts fitted to a specific market.

## ORDERING

When ordering replacement parts it is essential that the following points are noted.

1. Always quote the complete part number including all prefix and suffix letters or numbers.

2. Always quote the quantity required, noting that the quantities shown are those used in the application actually illustrated. Sometimes only minimum packaged quantities are available and these may well contain more parts than are actually required for a single job. For details of packaged quantities refer to the parts price list.

3. Where a change point is shown for a vehicle, engine, gearbox or axle check carefully to ensure that the correct part number is ordered.

4. The listing or illustrating of an item does not guarantee it's availability.

The policy of BL Cars Limited is one of continued development and improvement. Consequently they reserve the right to change specifications without prior notice.

# INTRODUCTION

## REPERTOIRES

Le catalogue comporte un certain nombre de répertoires en facilitant la consultation.

1. Répertoire illustré — Il consiste en de petites illustrations correspondant chacune à un groupe de pièces. Face au groupe on trouve les numéros des première et dernière page sur lesquelles figurent les pièces.

2. Répertoire alphabétique — Il donne des nomenclatures de toutes les pièces principales du véhicule, par ordre alphabétique, et le numéro de la page à laquelle on trouvera la pièce.

3. Répertoire numérique — Il se trouve en fin du catalogue et énumère toutes les pièces de rechange par ordre numérique et donne le numéro de la première page à laquelle la pièce figure.

## DISPOSITION

Le catalogue représente toutes les pièces, ensembles ou pochettes de réparation qui se font pour le véhicule, chaque pièce comportant un numéro-clé qui renvoie aux renseignements appropriés comme le numéro de la pièce, sa désignation, la quantité, qui se trouvent à la page à côté. Les désignations encadrées indiquent que la pièce fait partie de l'ensemble qui la précède immédiatement. Lorsqu'une pièce n'est pas vendue séparément il faut monter sur le véhicule l'ensemble ou kit. Les numéros de pièce indiqués sont communs à tous les modèles que concerne la publication sauf indication contraire figurant à l'en-tête ou dans la colonne réservée aux observations.

Il est demandé aux utilisateurs du catalogue de se familiariser avec les divers symboles et abréviations utilisés tout au long du catalogue, et aussi avec les abréviations des pays, pour les pièces destinées à un marché particulier.

## COMMANDES

Pour commander des pièces de rechange il est essentiel de se conformer aux règles suivantes:

1. Toujours indiquer le numéro de la pièce tout entier, y compris toutes lettres ou chiffres, préfixes ou suffixes.

2. Toujours indiquer la quantité requise, ne pas oublier que les quantités indiquées sont celles requises pour l'utilisation qui est illustrée. Parfois les pièces sont conditionnées par quantités minimales et il est possible dans ce cas qu'il y ait plus de pièces que nécessaire pour une intervention particulière. On trouvera au barême des renseignements sur les pièces vendues par quantité.

3. Lorsqu'un changement est indiqué pour un véhicule, un moteur, une boîte de vitesses ou un essieu, vérifier soigneusement qu'on commande la pièce portant le bon numéro.

4. Le fait qu'une pièce figure à la nomenclature ne veut pas forcément dire qu'elle soit disponible.

BL Cars Limited a pour principe de procéder sans cesse à des développements et perfectionnements, et se réserve donc le droit d'apporter des changements aux caractéristiques sans préavis.

# EINLEITUNG

## INDEX-VERZEICHNISSE

In diesem Katalog sind eine Reihe von Index-Verzeichnissen zur leichten Bezugnahme vorgesehen.

1. Bildindex: Dieser Bildindex besteht aus einer Reihe von kleinen Abbildungen, die sich jeweils auf eine gewisse Bauteilgruppe beziehen. Zu jeder Gruppe gehören die Anfangs- und Endseitennummern, auf der die abgebildeten Teile zu finden sind.

2. Alphabetischer Index: Auf diesem Index erscheinen alle Hauptteile des Fahrzeugs in alphabetischer Reihenfolge und die Seitenzahl, auf der diese Bauteile zu finden sind.

3. Numerischer Index: Dieser Index am Ende der Kataloglisten zeigt alle Serviceteile in numerischer Reihenfolge und außerdem die erste Seitenzahl, auf der ein Teil erscheint.

## AUSLEGUNG

Der Katalog zeigt alle Teile, Einheiten und Reparatursätze, die für das Fahrzeug erhältlich sind. Die Einzelteile sind mit Zahlen gekennzeichnet, die auf die relevante Information verweisen (z.B. Teilnummer, Beschreibung und Menge auf der nächsten Seite). Eingesetzte Beschreibungen weisen darauf hin, daß ein bestimmtes Teil zu der kompletten Einheit gehört, die direkt nachfolgt. Wenn ein Bauteil nicht separat erhältlich ist, muß eine komplette Einheit oder ein ganzer Bausatz in das Fahrzeug eingesetzt werden. Die angegebenen Teilnummern beziehen sich auf alle Modelle, für die diese Veröffentlichung gilt, wenn es nicht anders in der Überschrift oder unter Bemerkungen angegeben wurde.

Leser dieses Katalogs lernen am besten die verschiedenen Standardsymbole und Abkürzungen, die überall im Katalog verwendet werden, kennen. Außerdem sind die Länderabkürzungen nützlich, die für Teile eines bestimmten Marktes gelten.

## BESTELLUNG

Bei der Bestellung von Ersatzteilen ist es erforderlich, die folgenden Punkte zu beachten:

1. Immer komplette Teilnummer mit Präfix- und Suffix-Buchstaben oder -Nummern angeben.

2. Niemals Mengenangabe vergessen. Es werden immer die Mengen abgebildet, die in der gezeigten Anwendung benötigt werden. Manchmal sind nur Mindestmengen erhältlich. Dabei kann es sich um zahlenmäßig größere Teile handeln, als sie für eine Arbeit erforderlich sind. Einzelheiten über abgepackte Mengen sind auf der Einzelteilpreisliste zu finden.

3. Wenn für ein Fahrzeug, einen Motor, ein Getriebe oder eine Achse ein Änderungspunkt gezeigt wird, sorgfältig überprüfen, daß das korrekte Einzelteil mit der richtigen Nummer bestellt wird.

4. Eine Abbildung oder Aufführung eines bestimmten Bauteils ist keine Garantie für die Lieferfähigkeit des Artikels.

BL Cars Limited ist ständig damit beschäftigt, seine Produkte zu verbessern und weiterzuentwickeln. Änderungen ohne vorherige Mitteilung sind daher vorbehalten.

## SYSTEME DE CODE POUR PEINTURE EXTERIEURE ET GARNITURE

En ce qui concerne les coleurs fondamentales, on a imaginé le système suivant.

| la couleur de la carrosserie | le code de la peinture | la couleur de la carrosserie | le code de la peinture | Coloris Garnitures | le code de la garniture |
|---|---|---|---|---|---|
| French Blue | JAA | Inca Yellow | FAB | Sebring White | NAC |
| White | NAB | Russet Brown | AAE | Black | PAA |
| Mimosa | FAA | Tahiti Blue | JAE | Beige | AAA |
| Pimento | CAB | Flamenco | CAD | Chestnut | AAD |
| Carmine | CAA | Brooklands Green | HAE | Tartan Red | CAC |
| Maple | AAC | Astral Blue (Metallic) | JAF | Emerald | HAC |
| Java | HAB | Tara Green (Metallic) | HAD | Red & Black | RAA |
| B.R.G. (1975) | HAA | Pageant Blue | JAG | Green & Black | RAB |
| Delft | JAB | Leyland White | NAF | | |
| Topaz | EAA | Vermillion | CAE | | |

Les teintes de peinture et les éléments de garniture sont définis par les lettres codifiées comme cela est indiqué ci-dessus, selon le numéro de l' élément.

La peinture et les teintes de la garniture sont enregistrées dans les espaces fournis sur les plaques d' immatriculation de série.
